The Importance of Wedding Photography...

Now that you have said “yes” to the age old tradition of publicly acknowledging your life long commitment with your sole mate, you have a lot of choices to make about how this will be done. One of those decisions is to photographically record the emotion and excitement of the day. Only a professional and experienced Wedding photographer will know best how to achieve a long lasting and complete record of one of the most important days in your life. Something that will last many years and be handed down to children and grandchildren. Something to fondly and proudly look back on when the passage of time takes it's toll. Not every one can witness the emotion of the Bride getting ready, the Groom waiting nervously, the emotion of a proud parent as their child is about to be wed. What can be more important?

Our Philosophy...

The important things in life are not seen with the eyes, but with the heart. We capture the moment, so that you can enjoy the memory, forever...

Congratulations...

Congratulations on your engagement and please accept our wishes for a fantastic and memorable Wedding day. What a wonderful occasion to look forward to. As a Brisbane based family Photography business with years of industry experience, we understand the importance of this special occasion. We specialise in Wedding and Event photography and know what it takes to capture and present the many moments and memories of your special day in unique and creative Photographs, Albums, Frames and our exclusive password protected Online Gallery.

Our photography style covers a range of formats – from formal portraits, posed moments, to photojournalistic. You don't have to be a super model to have great photos. We take care of all the special details from posing through to post processing. Leveraging from a purely digital format, we produce creative images in colour and black and white, with special effects and photo enhancements to give you a complete solution catering to all your desires.

As experienced Wedding photographers, we take great pride in ensuring that your special day is captured the way you want. We discuss all the details and options with you well in advance and we don't impose our opinions on you. It's all about you and ensuring that you have fun. By choosing FlexiPix, you don't have to worry about a thing. We have a range of Wedding packages and add-on options available to give you the best possible solution to suit your individual needs. Every Wedding is unique and we feel privileged to be invited to be a part of it. No matter what your requirements or budget, we will always strive to not just meet, but exceed your wildest expectations.

FlexiPix covers the Brisbane metro and suburban areas of south east Queensland. We are happy to travel to regional areas of Queensland and Australia too – it's all about giving you the perfect photography solution. We welcome you to look through our web-site and the galleries. We would be more than happy to meet with you, show examples of our work and to discuss the details of your special day. Please call Dave and Tanya now on (07) 3843 4761 to arrange an appointment.

Why Choose FlexiPix...

We are proud to say that most of our work comes directly from “referrals” and recommendations from our previous customers via “word of mouth”. This often means that we end up building long lasting relationships within family or friend based circles. We enjoy taking photographs that we know are going to be viewed for many years to come and feel privileged to be invited to photograph so many Weddings. So what makes us different to so many other photographers?

The FlexiPix difference:

- **Coverage.** Two photographers simultaneously working as a team to cover the ceremony ensuring that no moment is missed. Alternate angles produce a better set of photos to choose from. We don't leave anything to chance.
- **Experience.** We have extensive Wedding industry experience and specialise in Wedding Photography by choice. This is reflected in the level of detail that we put into pre planning all the special details of your day. The emphasis is “your day”, so we take great care in presenting the many options available and understanding what is important to you.
- **Quality.** Our images and printing are of the highest quality. We take great care to ensure that all our equipment is correctly calibrated. We only use the highest quality photo labs in Brisbane to produce our prints. These labs only deal with photographers. While this makes the prints more expensive to produce than department store or shopping centre labs, this ensures accurate reproduction and consistency between orders. We would not expect second best, neither should you.
- **Value for money.** We have a range of packages that have been specially configured to give you an excellent variety of inclusions at the best possible price. Our reprint prices are very affordable. All your family and friends can easily afford to purchase our professionally produced photos via our OnLine ordering system. 6x4 prints start at just \$1.50!!!
- **Customer focus.** We understand how challenging it can be to plan a Wedding. We are more than happy to help out with suggestions or advice from our extensive experience. On the day, we are very careful to make sure that you are having as much fun as possible — after all, we want your photos to show how happy you really are to be marrying the person you love. We have a relaxed and easy going approach, with a professional attitude, but still make sure that all the details are covered.
- **Style of photography.** Natural and beautiful photos don't just happen. The best possible camera equipment does not guarantee a photo that captures the joy and romance of a special moment. We carefully stylise each shot. Minor adjustments here or there can greatly enhance a photo before it is taken. Once captured, we use the latest processing and printing techniques to further enhance the photo. We can remove blemishes or other distracting items, apply sepia tones, black and white, colour picked and many other effects. We don't lock into only one flavour or style. We use what is appropriate for each occasion. We pose people where necessary. We hide in the background when needed. We touch up the photo if it makes it better.
- **Product Range.** We have a range of packages and products to suite the budget conscious through to those wanting the ultimate experience. We deal with many suppliers and therefore can offer a wide range of albums, wall hangings and accessories.
- **Professional Equipment.** We predominately use Canon pro series camera bodies, lenses and accessories. We always carry spare camera bodies, lenses, flashes, batteries and cards. Any brand camera can fail, but by using professional grade equipment and having spares within hands reach, we are covered in case of a failure.
- **Qualifications.** We are recognised members of several professional photography organisations and as such abide by their Code of Conduct. We regularly attend industry training events and conferences to ensure that our skills are keeping pace with new technology and photography techniques.
- **No hidden costs.** The prices we show for our packages are fully inclusive. There are no separate “booking fees” or other costs, so you don't have to wonder what else you might have to pay. All of our listed prices are already inclusive of GST.

Wedding Packages...

We offer a range of flexible solutions suitable for the budget conscious, through to the ultimate package of your special day from beginning to end, at multiple locations, with photo slide show at the reception in addition to your Wedding print and album options. We have a large selection of albums and layouts, including photo packages for other family members and friends including a web album. We can even add in photos from your guests into your albums.

Albums

The purpose of a Wedding Album is to tell the story of the day. A good album is much more than just a pile of photos. We carefully sequence the photos showing all the natural beauty, excitement and emotion of your special day. We work closely with you to ensure that your album completes the story. You will be proud to show your FlexiPix album to friends, family, children and even grandchildren for many years to come because our albums will last a life time. We have several styles of album available and many options to choose from to make your album truly unique. Here are just a few examples of our popular albums...

12" Contemporary Wedding Album.

This is our most popular album. A very elegant mated 12" album with a selection of cover materials available. A typical album will contain 60 to 80 photos on 20 sides. This album comes with a black presentation box for safe keeping. This is a top quality book bound album at a budget price.

Price: \$475

To discuss your Wedding, please call (07) 3843 4761

9" Digital Wedding Album.

This album uses the modern "Digital Magazine" technique where every page is a digital composite of photos, backgrounds, text and special effects. The construction of the album is leather post bound, with 20 sides and a presentation box to keep the album safe. The cover contains an oval cutout to hold a photo.

Ideally suited for those on a budget wanting a modern style album or as a parents album.

Available in two colours — Brown and Blue.

Price: \$300

This "Digital" format is also available in other album sizes, covers, styles and prices.

Coffee Table Photo Book.

Our photo books are a new and contemporary way to present your photos in a premium hardcover coffee-table book. Each page is a digital composite of photos, backgrounds, text and special effects. The book comes with a dust cover and can include a presentation box. Photo books are best suited in situations where you wish to present lots of photos and lots of pages. The photo book also includes a Presentation Box.

Available in four sizes:

Size	Price (20 pages)
8" x 8" square	\$350
8" x 12" portrait or landscape	\$380
12" x 12" square	\$580
12" x 16" Portrait or landscape	\$600

Extra pages can easily be included. Price depends upon quantity of photos, pages and style of pages.

Discounts can be negotiated on quantity - but only at time of printing.

Wall Hangings

Nothing can make a house more like a home than an image of the Bride and Groom on their Wedding day prominently displayed for all visitors to see. We offer a choice of canvas wrapped, traditional wooden and glass frames or a framed montage. Here a just a few of our popular choices...

Secret Tips...

Our many years of Wedding experience has taught us a thing or two about what to do and what not to do. We always want our Brides and Grooms to have the best possible photos.

Here are just a few suggestions that may help your day go a little easier:

- Start the Wedding day off with a good breakfast. Don't forget to eat and most importantly, don't forget to drink plenty of water — especially in summer. If you are on the move all day, then have a few muesli bars or snacks and a bottle of water with you. You don't want to be walking down the aisle ready to faint from dehydration or hunger.
- Have a Wedding plan. List out all the tasks and who will be doing them. Make sure that everyone is working from the same plan. Work out the possible timing for the day and give your self plenty of time, but be patient and have an open mind. Sometimes things may go a little differently than planned. Don't let it upset you. Things will only get worse if you stress over every little detail.
- Have a "wet weather" plan. If your ceremony is out doors, you need to have strategy for dealing with a change in weather conditions. Hopefully you will never have to use it. But if you do need to use it, you will already be prepared and everybody will know what to do.
- Your Bridesmaids and Groomsmen are there to serve **you**. Not the other way around. Explain to them before hand what their responsibilities will be. EG carry makeup, hold keys, rings or bouquet, organise refreshments, find people when needed for photos etc.
- Don't hand the important task of photographing your Wedding to a non professional — even if they have a top quality camera. A bad cook can ruin a meal with a good oven. The camera does not make the photo, the person holding the camera makes the photo. Professional photographers have a full repertoire of tricks and techniques to get the best out of the situation. Experience and technique will always beat a good camera and luck.
- Confirm all your Wedding details and reservations with all your suppliers at least a week out. Make sure that everybody has the correct details by asking them to recite them back to you.
- The family formals and portraits can consume a lot of time for very few photos. So best to get them organised. Let the people that are to be in these shots know before hand so that they can be ready.
- Allow about an hour after the ceremony and family formals for romantic photographs of the Bride and Groom and or Bridal party. More if there is travelling involved.
- HAVE FUN!!! Your photos will look so much better if you are actually enjoying your self.
- Going away for your honeymoon? What bills will be due while you are away?

These are just a few comments passed onto us from our Brides and Grooms, their families and their friends...

Hi Dave and Tanya,

I need to let you know how grateful Gareth and I are for all your support throughout our wedding day and more. Your unique style captured our hearts and happiness naturally, giving us amazing memories to treasure forever, of the most important day of our lives.

The time and effort that you gave to our pre-wedding consultation, wedding rehearsal, wedding day and post-wedding service has been exceptional. Your innovative approach to all aspects of your business, including your wide range of photographic abilities and packages, reasonable pricing, online accessibility and creative album ideas caters to all styles from casual through to formal. Your flexibility in dealing with us throughout the last 12 months has been invaluable.

We, and our wedding guests, have been so impressed that already we have referred two couples whom we believe have taken up your services for their wedding days.

Congratulations, we wish you every success in the future, and thank you very much for getting it right and providing a service that works.

Kind regards,
Gareth and Lisa Tracy
